

## Material Safety Data Sheet – Unleashed Cologne

### Section 1) Material Identification

- **Material Name:** Cologne
- **Chemical Name:** A Proprietary blend - specially denatured alcohol, surfactants, and fragrances.
- **Trade Name:** Groomer's Edge – Unleashed Cologne

### Section 2) Summary of Hazards

- **Physical Hazards:** Slightly flammable liquid
- **Acute Health Effects:** Slight eye irritant, slight ingestion hazard, no skin absorption hazard. (Short Term)
- **Chronic Health Effects:** Chronic overexposure to product can be slightly irritating to mucosal membranes.

### Section 3) Physical Data

- **Solubility in Water:** 100%
- **Volatility:** Slight
- **Conditions To Avoid:** High Temperatures, strong oxidating conditions.

### Section 4) Fire & Explosive Data

- **Flash Point:** 135 Degrees Fahrenheit
- **Flammable Limits:** Lower AP 2 (Closed Cup) Upper AP 12
- **Fire and Explosion Hazards:** Do not store above 120 Degrees Fahrenheit
- **Extinguishing Media:** Dry chemical CO2, water spray, foam for alcohols.
- **Special Fire Fighting Procedures:** Do not enter area without proper protection. Fight fire from safe distance/protected location.

### Section 5) Health Hazard Data

- **Inhalation:** Prolonged overexposure may cause slight dizziness.
- **Ingestion:** For accidental ingestion, drink copious amounts of water.
- **Eye Contact:** May cause slight irritation - if contact occurs flush with water.
- **Skin Irritation and Absorption:** None detected.

### Section 6) Reactivity Data

- **Stability:** Stable Hazardous Polymerization: Will Not Occur

### Section 7) Special Protection Information:

- **Respiratory:** If exposure exceeds the PEL / TLV, use NIOSH / MSHA respiratory protection equipment as specified in the NIOSH / MSHA 1991 occupational health guidelines for chemical hazards.
- **Eye:** Eye protection is recommended if possibility exists for eye contact.
- **Skin:** None
- No special ventilation needed.

### Section 8) Environmental Disposal & Protection

- Soak up residue with an absorbent such as clay, sand or other suitable material. Try to minimize spillage.
